This live telephone briefing will examine the recent changes to the Servicemembers Civil Relief Act (SCRA), and provide insight on how banks can best serve military families in their communities.

More citizen soldiers are being called to active duty for longer periods than in recent history. With all of the U.S. troops now on active duty, the banking industry must be aware of the obligations under the SCRA. Is your bank in compliance? How can your institution best support our troops? What are the concerns of military family members – those being deployed and those left behind? Get your questions answered by the experts!

Participants will learn:

- Critical SCRA updates regarding:
 - Interest Rate Reduction for Mortgages, Installment Loans and Credit Cards
 - Coverage under SCRA
 - Foreclosures
 - Default Judgments
- Active Duty Status Verification through the DMDC
- Practical SCRA implementation strategies
- How banks are helping the severely injured and aiding their reintegration into local communities
- Strategies from the National Military Family Association (NMFA) on assisting our troops and their families
- Pre and post-deployment training and educational programs
- Financial Readiness Program opportunities.
